Step 1

Understand Yourself

First, you'll build your team in our portal. Each team member is then invited to complete our **personality test**, seven **team** assessments, and nine **individual** personal growth assessments.

Step 2

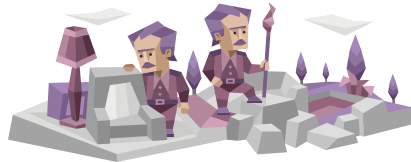

Understand Your Team

Next, you'll get **team and personal reports** for every assessment, highlighting your team's strengths and weaknesses. Learn why your team operates the way it does and how to work best together.

Step 3

Turn Insights into Action

Then, you'll complete **self-directed workshops** to reflect on your team's results – turning insights into action and cultivating deeper, more effective working relationships.

What can Team Assessments do for your company?
